Sailboat is perfect for sailing in shallow to deep water. Seats 4 in cockpit. Sleeps 4.

Great for learning to sail with same gear found on larger sailboats. All lines lead back to cockpit making solo sailing comfortable, even in higher winds with gusts. Reefs from the cockpit, making reefing on-the-fly manageable. Rolling furling with 140 degree sail allows for fine tuning of jib to adjust to changing wind conditions.

Includes all the features commonly found on larger boats. Head, Sink, Deep well, 2 burner stove, Ship to shore radio, Stereo with CD Player, Separate marine batteries for motor and electronics, Perko battery switch

All Coast Guard required safety equipment included.

In the water at White Bear Lake and ready for a test sail.

Includes custom trailer with extendable tongue. (Trailer is licensed MN)
